

YODA

Peter Brezac one of the Directors of Brezac Constructions took on the commitment to be a Guide Dog Puppy raiser. So along came 9 month old Yoda back in July 2022 to spend 6 months with Peter. Each day YODA came to work at the factory. He had his own special spot in the factory office where he spent his days sleeping like growing puppies do, listening to the talk about projects, hearing all the different noises from outside in the fabrication factory and checking out the never ending parade of people in and out of the office. We will miss his friendly presence and are sure he is destined for great things.

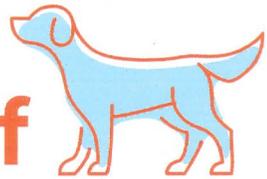

Raising a skilled Guide Dogs takes \$\$\$\$

It takes two years and costs more than \$50,000 to transform a bright, playful puppy into a responsible and highly skilled Guide Dog. The cost and time are due to the in-depth training and careful preparation that goes into the transformation.

Guide Dogs Queensland receive very little funding from different governments around Australia, which means they rely on community support—as donors, fundraisers, volunteers, and more—to provide these life-changing services to people with low vision or blindness.

Certificate of Appreciation

Presented to Guide Dogs Puppy Raiser:

Peter Brezac

in recognition of your commitment, time and love while raising Guide Dogs puppy

Yoda

As a dedicated volunteer Puppy Raiser, you have given so much of your time, your heart, and your home to your pup through various stages of training. Because of your devotion and passion, you have given your pup the best possible chance of becoming a Guide Dog for someone with low vision or blindness.

Thank you.

Michael Kightley
Chief Executive Officer

January 2023

Guide Dogs.
